Profile

I am a Full-Stack web developer currently studying a Bachelor of Design Computer / Advanced Studies at the University of Sydney. I have a passion for everything related to coding, but particularly love working on the Front-End.

Projects

aDevelopersFriend – 2021

aDevelopersFriend has been built as the solution to mindnumpingly scrolling through past projects to find snippets of code you are wanting to re-use. My application is capable of storing and displaying HTML, CSS and Javascript within files and folders that allow you to replicate the folder structure of a project.

Languages: CSS - Javascript

Technology: MERN - Express.js - JWT
